

ENGINEERING SERVICES

Assess and report:

- damage to roof, slab, wall and site
- pipe, pool and plumbing failure
- geotechnical soil and rock mechanics
- fire, storm, flood and accidental damage

BUILDING INVESTIGATIONS

Investigate defect compliance, partial damage or total loss, including:

- strata reports (e.g. maintenance schedule)
- external condition and structural safety reports
- survey building condition or dilapidation risk

DESIGN & DRAFTING

Registered architects and draftspersons:

- prepare architectural and engineering design
- provide documents and specification
- provide advice on building laws and codes

PROJECT MANAGEMENT

For large & complex loss:

- manage construction, design and repair
- cost and tender management services
- a dedicated project manager
- coordinate all industry professionals as required

OUR ENGINEERS AND BUILDING INVESTIGATORS FIND THE PROBLEM. THE DESIGN TEAM DOCUMENT THE SOLUTION. AND OUR PROJECT MANAGERS ADMINISTER THE PLAN.
